Artery Technology Company ISO 26262 Process

(ASIL D)

Version 1.0

Tested according to

Geprüft nach

ISO 26262:2018 (Parts 2, 4, 5, 8, 9)

Technical Data and Parameter

Technische Daten und Parameter

The audited development process complies with the
ISO 26262 standard part requirements.

The certificate is created for the purpose of providing conformity of the development and support process in accordance with ISO 26262. Any changes to the processes may require repetition of some of the evaluation steps in order to retain type approval.

The certificate report is an integral part of this certificate. All requirements and specifications of the current valid revision of this report shall be met.

Surveillance

Überwachung

Certificate is valid for the specified version only, no surveillance necessary.

The certificate is based on voluntary tests. The compliance of the certified product against the requirements of above listed standards was evaluated. Any changes to the design, components or processing may require repetition of some parts of the certification in order to retain the certification. All applicable requirements of the testing and certification regulations of SGS-TÜV Saar GmbH have to be complied, see www.sgs-tuv-saar.com/tcr-muc and www.sgs-tuv-saar.com/qtc-muc.
